

BRIDGE TO GLOBAL PAYMENT SOLUTIONS

Vision

We aspire to improve our world and the lives of our Global members with the adoption and use of cryptocurrencies as an alternative way to earn income, invest, save and make payments.

Problem

1. The traditional financial system is failing.
2. Stressful requirements for opening International bank account.
3. High profits are kept by banks and investors and merchants are left with little.
4. High International fund/money transfers.
5. Long wait time for fund/money transfers.
6. High Interest Credit / Loan rates.
7. Restrictive worldwide fund/money transfers.

Solution

1. Victorium secure/inflation proof blockchain technology.
2. Simple requirements for opening International Multi-currency Bank Accounts.
3. Additional benefits for investors and merchants.
4. Fast, low cost International funds/money transfers.
5. Low interest rates for Credit / Loans.
6. Borderless fund/money transfers.
7. High savings interest and rewards for Victorium members.

Core Value

Transparency, Honesty, and Goodwill to our global investors and partners. We believe these values are the keys to a long-term, successful relationship.

Purpose

To uphold humanity's basic fundamental right to control their own finances and well-being.

Mission

We improve our world by the creation and adoption of a secure, decentralized digital financial and payment system using blockchain technology that enables our members to save, earn rewards, invest, withdraw and transfer funds, and pay for goods and services anywhere in the world using one platform. Global members, partners, homeless Veterans, and Children will be the primary beneficiaries through the mass adoption of our unique services.
